5,000 ACRES IN CULTIVATION OF

Fruit and Ornamental Trees, Roses,
Shrubs, Etc.,

W. & T. SMITH, PROPRIETORS.

We claim great advantages for the soil of Geneva and vicinity, in the production of healthy, long-lived trees. This is a matter of great importance to every planter. Not a year passes that we do not receive additional testimony of the fact that trees grown upon our heavy, strong, rich, well-drained soil are healthier, longer lived, less liable to injury from extreme cold, and more productive than when taken from a light soil. Another very important fact is that being furnished with a more abundant supply of healthy, well-developed and fibrous roots, they bear transplanting to a different soil and climate much better.

All persons authorized to act as Agents for us, are provided with a written certificate to that effect, and we request that they be required to show their certificates. Stock is not infrequently sold by persons without authority, and not furnished from the places to which great dissatisfaction and disappointment. BUY GOOD STOCK OF RELIABLE MEN, and this may be avoided.

New York Mining Market.

New York, January 10.--Mining shares opened steady, with a fair demand. Suto Tunnel was pressed for sale in the afternoon. The following were the closing prices bid: Alice at 1.25, Bulwer 1.25, Best & Belcher at \$2, Bodie at 3.25, Consolidated California & Virginia at 25.25, Deadwood at 2.25, Eureka Consolidated at 4.50, Horn Silver at 1.70, Hale & Norcross at 9.50, Iron Silver at 2.55, Mono at 3.20, Sierra Nevada at \$7, Standard at 1.20, Savage at 5.25, Silver King at 0.75, Union Consolidated at 5.50.

New York Stock Market.

New York, January 10.--Government bonds were dull, but firm. A disposition to await the action of Congress upon the inter-State commerce bill, still keeps the operators out of the stock market, which remains dull and almost devoid of feature. The market opened somewhat irregular, but generally strong. Lake Shore was a conspicuous stock, with an advance of 3/4 per cent. There was a moderate business in the first few minutes, in which Jersey Central and West Point were conspicuous. Prices were strong, especially for Jersey Central and Peoria, Decatur and Evansville. The activity soon died away, but the advance in prices continued until noon. The dullness was then intensified, and prices sagged off slowly until the close, which was dull and heavy, and generally small fractions above the opening. Sales, 228,579 shares.

The Liverpool Grain Trade.

LIVERPOOL, January 10.
Wheat--Quiet; demand has fallen off; holders offer moderately.
Corn--Firm; fair demand.

British Grain Trade.

LONDON, January 10.--The Mark Lane Express, in its review of the British grain trade during the past week, says: "Trade in English wheat has been active, but values have been maintained owing to the supplies being limited. Sales of English wheat during the week were 30,817 quarters, at 35s 4d, against 39,967 quarters, at 29s 10d during the corresponding week last year. Flour is steady. Foreign wheats have rather slackened off under the publication of the London stocks, which show an excess over the general estimate. The increased quantities afloat, combined with continued accumulations in America, also had their influence on prices. Corn is rather cheaper. Barley is steady. At to day's market wheats were quiet, flour was quiet and oats 3s @ 6s.

California Wheat.

SAN FRANCISCO, January 10.--The Produce Exchange finished, to-day, taking the stock of wheat on hand on January 1st, in the state and aboard the vessels in the harbor. Official figures were not to be published until to-morrow, but they were obtained, to-night, through private sources. The stock on hand is 400,000 tons. Required for consumption, seed, carry over and shipments to Pacific Ocean points, 150,000 tons; balance available for shipment to Europe, 250,000 tons, equal to 8,000,000 bushels. These figures corroborate the estimates lately made during the first six months of last year. California sent to Europe 402,000 tons of wheat, 60 per cent. more than the actual quantity at present in the State for export to Europe. As this year is an "off" year, due to smaller amounts of summer following done in the even years, the next season's surplus is likely to be small, with only a small carry-over to add to it.

A Texas Blizzard.

GALVESTON, January 10.--Telegrams from all quarters of Texas tell of severe cold weather, which set in last night. Dispatches from many points report heavy sleet, which is delaying travel. Ice formed here last night, and a stiff norther is blowing to-night.

The Only Way to Conquer Dyspepsia

It is perfectly preposterous to introduce poison and other artificial solvents into the stomach, in the expectation that they will assist digestion by acting on the food itself. They will not. Nor is it possible thus to overcome dyspepsia. The only way to conquer that disorder, and prevent the numerous diseases and disabilities which it assuredly provokes, is to renew the activity of gastric function by strengthening the stomach. Hostetter's Stomach Bitters eradicates the most inveterate forms of indigestion by restoring vitality to the alimentary organs, and those which are tributary to them. The liver, the bowels, the kidneys and the nerves, no less than the stomach, experience the invigorating effects of that standard tonic, which possesses alternative properties that greatly enhance its beneficial influence, and give a permanence to its effects which they would not otherwise possess.
